Contents

<i>Foreword</i>	viii
<i>Preface</i>	xi
<i>List of abbreviations</i>	xiii
<i>Table of cases</i>	xv
<i>Table of treaties</i>	xvii
1 Introduction	1
1.1 The objectives, methodology and scope of this book	1
1.2 Diversification and fragmentation under international law	5
1.3 A brief overview of the sources of international law	6
1.4 The conservation of living resources on the high seas: a fragmented international legal framework	10
1.5 Harmonization: systematic integration to overcome fragmentation	16
1.6 Conclusion	19
2 Regulatory jurisdiction over living resources on the high seas	26
2.1 Introduction	26
2.2 The qualifications to the right of freedom of fishing and their effect upon regulatory jurisdiction	31
2.2.1 The vested interest of all states over living resources on the high seas	32
2.2.2 The specific qualifications to the freedom of fishing	40
2.3 Conclusion	72
3 The obligation to take conservation measures for living resources on the high seas	94
3.1 Introduction	94
3.2 Definition, goals and types of conservation measures	95
3.2.1 Pre-UNCLOS Developments	96
3.2.2 The obligation to take conservation measures on the high seas according to UNCLOS	101
3.2.3 Conservation under post-UNCLOS developments	104
3.2.4 The post-UNCLOS treaties	106

3.2.5	The effects of 'soft law'	112
3.3	Conclusion	118
4	Specialized conservation measures for particular species on the high seas	129
4.1	Introduction	129
4.2	The conservation of straddling stocks and highly migratory species on the high seas	130
4.3	The conservation of anadromous and catadromous species on the high seas	140
4.4	The conservation of marine mammals on the high seas	145
4.5	The conservation of sedentary species in marine areas beyond national jurisdiction	151
4.6	Conclusion	155
5	The main constituent elements of conservation regimes for living resources on the high seas	166
5.1	Introduction	166
5.2	The legal methodologies	167
5.2.1	The duty to cooperate	167
5.2.2	Promoting compatibility between conservation measures adopted by various states	170
5.2.3	Linkages with science and technology	172
5.2.4	Compliance and enforcement measures	173
5.3	The management principles and concepts	175
5.3.1	Sustainable use of marine living resources on the high seas	175
5.3.2	The precautionary approach	179
5.3.3	The ecosystem approach	182
5.4	Conclusion	187
6	Enforcement jurisdiction on the high seas and the conservation of living resources	193
6.1	Introduction	193
6.2	Legal obstacles to the application of compliance and enforcement measures on the high seas	194
6.2.1	The exclusivity of flag state jurisdiction and its abuse	195
6.2.2	Reflagging of fishing vessels	203
6.3	Conclusion	209

7	The conservation of living resources on the high seas: constituent elements for compliance and enforcement	217
7.1	Introduction	217
7.2	Registration of fishing vessels and the authorization to fish on the high seas	218
7.3	Control, monitoring and surveillance (CMS)	224
7.3.1	Submission of data, reporting and access to information	225
7.3.2	The vessel monitoring system	234
7.3.3	Observer programmes	235
7.3.4	Boarding and inspection	237
7.3.5	Listing of vessels	242
7.4	Internationally agreed market-related measures	243
7.5	Port state control	247
7.6	Settlement of disputes	249
7.7	Conclusion	251
8	Conclusion	262
8.1	The need for harmonization among applicable norms: an overview of the current state of play	262
8.2	A summary of the recommendations for harmonizing applicable regimes	266
	<i>Bibliography</i>	284
	<i>Index</i>	299
