

## ASIA-PACIFIC JOURNAL OF OCEAN LAW AND POLICY

### Aims & Scope

The *Asia-Pacific Journal of Ocean Law and Policy* explores ocean law and policy issues in the most economically dynamic region in the world: the Asia-Pacific. These ocean spaces are crucial to international trade and are becoming increasingly important in terms of marine resources and security. Heavily contested, the region is subject to enhanced threats such as pollution, conflicting activities, exploitation and environmental degradation. Escalating ocean governance challenges coupled with mounting tensions in the region have made studies focusing on this area an especially pertinent topic for scholarly research and consideration in securing and maintaining peace in the Asia-Pacific region and beyond.
